SS: The struggle between the people and the hatred amongst them is being nurtured by very specific interested parties. It is a small, rootless, international clique, that is turning the people against each other and does not want them to have peace. It is the people who are at home both nowhere and everywhere, who do not have a home soil on which they have grown up, who today might live in Berlin, in brussels tomorrow, paris the day after that, and then again in prague or vienna or london and who feel at home everywhere. They are the ones who can be addressed as international elements because they conduct their business everywhere. But the people cannot follow them
